

GREEN EFFICIENT TECHNOLOGIES

2025

MEDIA INFORMATION

for the German and English edition

Hydrogen and Process Technology

Energy and Heat Networks | Energy Storage Solutions

Circular Economy | Resources | Logistics

Aims and Scope and Topics

“GET – GREEN EFFICIENT TECHNOLOGIES” is an independent media platform for energy supply, efficiency improvement and alternative energy sources and storage.

There is still a high potential to save energy in industry. Efficiency is not only important for the profitability of a company, it is also target-oriented and saves resources. The importance of efficiency, especially in energy production, the role played by hydrogen, industrial processes, resource and recycling management, how energy can be stored and much more can be found in the GET.

In technical articles from research and industry we present practicable ways to more sustainability, useful information and concept ideas as well as insights into efficient technologies, processes and products.

Subject areas

Hydrogen, renewable fuels, battery technology, hydropower and wind power, solar & photovoltaics, bioenergy, geothermal energy, system integration and other alternative options.

Representatives of manufacturers and operators as well as research scientists all give account to recent innovations and comment on the state of the art and future prospects.

Companies – Innovations – Products

Producers from these subject areas can introduce their product range by word and image and can further point out their capabilities.

Four issues are planned for 2025 two in German (print and digital) and two in English (digital).

Energy center hydrogen

Hydrogen is becoming an increasingly important part of the energy supply chain. The global energy transition is driving the need for clean energy. Hydrogen is a key component of this transition. It can be used in a wide range of applications, from power generation to industrial processes. The use of hydrogen can help reduce greenhouse gas emissions and improve energy efficiency. This article explores the latest developments in hydrogen technology and its potential for a sustainable future.

General Terms of Business Dr. Harnisch Verlags GmbH

1. These General terms and conditions as well as the advertising media information supplied to the customer are strictly applicable to all business relations between the customer and the publishing house. Different terms and conditions of the customer do not apply, even when they are not expressly contradicted by the publisher.

2. In cases of doubt, advertisement orders are to be completed within one year of conclusion of order. The publishing company guarantees the best possible reproduction of the advertisement in print and as a digital promotion tool.

3. A digital promotion can be made up of one or more elements such as photos and/or text, sound sequences and moving images: an area or space can be reserved by the customer as a clickable link to a further online address or mobile site to feature additional information.

4. For any errors in publication for which the publisher is responsible, the client shall receive compensation in the form of free replacement advertising or digital advertising space to the extent that the purpose of the advertisement/digital advertising which was impaired.

5. Claims to defects are struck by the statute of limitations within one year after the legal date of commencement of the limitation period.

6. The publishing company shall reserve the right to reject bookings for advertisements, digital promotions or printed or digital inserts as well as individual called up insertions within one advertisement order for reasons of content, source or the technical form in accordance with the basic principles of the publishing company. Orders for inserts or bound-in inserts are binding for the publisher only after the presentation of a sample of original size and after a written confirmation for the customer issued by the publisher. A possible refusal of the order will be communicated to the customer in writing. The refusal of an individual call does not give rise to the withdrawal of the total contract.

7. The customer will furnish the publishing house with the printing templates/digital materials according to its specifications. The specification of the printing templates/digital materials and the deadline for their presentation are set out in the advertising media information. The costs for layouts, printing material, etc. which are to be produced by the publishing company will be invoiced to the orderer, likewise the costs for any major alterations to the original agreed advertisements. Ordered advertisements/digital promotion which are not to hand or only incomplete by the copy date as laid down in the publication schedule, will be published in the following issue in the manner determined by the publishing company.

8. Proofs are only supplied when expressly requested. The orderer is responsible for the correctness of the returned proofs. Should the orderer fail to return the proofs supplied to him in good time by the set date, this shall be considered as approval for printing/publishing. After publication, the publisher will send the customer a specimen copy free of charge/link or a copy of the page with reference to the advertisement/digital promotion.

9. The invoice is to be paid within the given period as stipulated on the advertising rates based on the date of invoice in so far as no reduced terms of payment or payment in advance has been agreed to in a specific case. In the case of default in payment or extension of date for payment, interest shall be charged at a rate of 5 %. The publishing company can hold back the completion of a current order in the case of default payment and demand payment in advance for the rest of the advertisements/digital promotions still to be published.

10. In the case of legal proceedings, non-payment, out-of-court settlement or bankruptcy, any discounts shall be waived and the full amount for the advertisement/digital promotion still to be published shall become immediately due for payment without any discounts or obligations on the part of the publishing company. The customer will only be entitled to offset with undisputed or legally valid claims. The customer is only entitled to the assertion of his right of retention due to counterclaims arising from this contract.

11. Printing material will only be returned at the express request of the orderer. The deadline for the storage of such printing material shall end three months after the advertisement/digital promotion has been published.

12. If, as a result of Acts of Providence or other reasons for which the publishing company cannot be held responsible, it is impossible to fulfil the order or for the same reasons publication of the journal of different issues/digital promotion is stopped, the publishing company shall have the right to defer publication or withdraw from the rest of the order.

13. The publisher will store all customer data disclosed to him within the context of the business relationship and required for the performance of the contract. These data will only be used for the fulfillment of the contract.

14. The seat of the publishing company is the sole place of jurisdiction and fulfillment also in respect of bills of exchange and cheques made out in connection with the order.
